## EXPERIENCE

### *Wilmut Solutions - Carmel, IN*

*May 2024 – August 2024*

*Software Development Intern*

- Developed a new HTML-based UI to replace legacy Windows Forms for the work order confirmation screen, improving usability in a warehouse management system.
- Wrote ASPX.NET (C#) code to replicate and enhance legacy functionality, allowing real-time "Report as Finished" (RAF) transactions for inventory management.
- Collaborated with client to test and validate system functionality, ensuring accurate work order processing and seamless integration with existing warehouse operations.

### *Women in Computing – Indiana University*

*May 2023 - Present*

*Vice President*

- Organize and coordinate 6 cross-functional executive board teams, leading to the successful execution of 15+ events each year.
- Document and report on 25+ collaborative events among executive board teams, ensuring consistent communication and streamlined operations.
- Plan, execute, and monitor promotional events with attendance exceeding 80 guests.

### *Women in Computing – Indiana University*

*September 2021 – May 2023*

*Marketing Executive*

- Created, planned, and posted 50+ targeted content pieces across social media platforms, increasing engagement among core audience members.
- Designed and maintained social media presence on Twitter, Instagram, and LinkedIn, growing weekly engagement base by 28%.
- Promoted and shared content aligning with the values and events of Women in Computing, resulting in an increase in event attendance.
